

Janet & John

A Natural Choice for the Professional.

J.J. Wound Spray.

Directions for use;

Use as supplied. J.J. Wound Spray is a Veterinary grade disinfectant designed to be sprayed direct into a wound after all debris has been removed. After spraying into the wound allow to air dry, unless the wound requires dressing. Repeat the process daily until the wound has healed and your horse is safe from potential infection through the wound. Full protocols and a range of products are available for quarantine or outbreak incidents.

This product contains; No Aldehydes, No Alcohols, No Chlorines, No Phenols and No Parabens for the benefit of you and your horse, while protecting the environmental structure of the planet by being readily biodegradable.

Product make up;

Homeo-Harmonised Water. (Aqua), "Sterichelle" (Alkyl Dimethyl Benzyl Ammonium Chloride, Alkyl Ethyl Benzyl Ammonium Chloride) and an Inert Dye.

Appearance very dark blue, mild fragranced liquid

Caution. For external use only. Keep out of eyes. J.J. Wound Spray contains Sterichelle™ which is about as safe as water to higher living organisms and to the environment. It is however proven to kill various micro-organisms through a broad spectrum so reasonable care should be taken. If ingested or in contact with eyes rinse with water immediately and seek medical attention.

Keep in original container. Store in a cool dry place away from children.

All empty containers should be recycled using the appropriate facilities offered by your local authority.

"Sterichelle" is your Invisible Protector against Bacteria, Viruses, Moulds, Fungi, Spirochetes, Bacterial Cysts and Fungal Spores that are potentially harmful to your Horses.

All test data is available on request.
