

Janet & John

natural products for wonderful creatures

Janet and John Equine Range:

J.J. Equi-Medical Kit

The purpose of the J.J. Medical Kit is to provide you as the horse owner, a broad spectrum, yet comprehensive home help system to help treat your horse and pets successfully for minor ailments.

There is nothing worse than seeing your horse or pet ailing and feeling powerless to help. The J.J. Medical Kit should negate this situation as you now have at your finger tips, the ability to at least try to help.

The J.J. Medical Kit must not be used to replace your Veterinarian's advice, yet should be used complimentarily.

The J.J. Medical Kit consists of four different kinds of natural remedies that are simple to select and equally simple to administer.

The purpose of the four different types of remedies is to provide help from more than one dimension wherever possible.

Contents:

Forty Six 100ml dropper bottles, each containing approximately one hundred individual treatments, therefore up to 4600 treatments in total per kit.

12 individual combined homoeopathic medications for topical use.

12 Flower formulae for emotional use.

12 Tissue salts for symptomatic use.

10 Lewis Tinctures for use by Chakra zone.

Also includes a complete handbook covering:

Introductions.

Remedies Used.

Use of Remedies.

Lewis Tincture Chart.

Precautions.

Remedy Selection A – Z.

Our mission is to blend traditional medical knowledge into the modern world for the benefit of you, your horse and the environment.
