

# Janet & John

natural products for wonderful creatures

Janet and John Equine Range:

## J.J. Radionics Diagnosis Service

Send us a sample of your horse's Tail hair and we will run a complete diagnostic service and advise you of any requirements your horse has regarding the following:

Allergies  
Chemically  
Environmentally  
Emotionally  
Nutrition  
Physically

We will then either advise you how to proceed with the relevant treatment, let you know what is required and who in our view is the best potential supplier in your area.

We can also offer acupuncture treatments using magnets, a homoeopathic service and supply the required tool with method statement for the procedure required by your horse. Included with this will be the relevant medication (homeopathic) or magnets with chart to advise you where to place it on the horse and for how long.

Our mission is to blend traditional medical knowledge into the modern world for the benefit of you, your horse and the environment.

Please contact us for greater in depth explanations of methodologies, cause and effect if you require.
