

# JJ Equine

A Natural Choice for the Professional.

## What's the Problem?

### **Dried Skin and Cracked Heels.**

This can be caused by any number of things.

Anecdotally, there have been reports of higher incidents after exercising on all weather surfaces. This is a big problem in racing yards.

### **We recommend**

1. Rinse off and clean the area to be treated with JJ Shampoo or JJ Wound Spray removing any debris prior to application.
2. Place a small amount JJ Dry Skin and Cracked Heel cream on dry patches of skin or cracked heel area.
3. Rub in gently until the affected area is covered. Gently massage J.J. Dry Skin and Cracked Heels in until all has been absorbed.
4. Repeat the treatment daily until the conditions have cleared up.

**Ingredients:** Homeo-Harmonised Water (Aqua), "Sterichelle" (Alkyl Dimethyl Benzyl Ammonium Chloride & Alkyl Ethyl Benzyl Ammonium Chloride)

This product contains: no aldehydes, alcohols, chlorines, phenols or parabens for the benefit of you and your horse while protecting the environmental structure of the planet by being readily biodegradable.

"Sterichelle" has been tested effective against bacteria, viruses, moulds, fungi, spirochetes, bacterial cysts and fungal spores that are potentially harmful to your horses.

All test data is available on request.

Our mission is to blend traditional medical knowledge into the modern world for the benefit of you, your horse and the environment.
