

JJ Equine

A Natural Choice for the Professional.

JJ Riders Hand and Body Moisturising Cream.

JJ Riders Hand and Body Moisturising Cream moisturises and softens skin while having an effect against bacteria, fungi and viruses for up to four hours depending on levels of soiling.

Method of use. Place a small amount of cream on dry patches of skin or where ever you choose to apply. Rub in gently until totally absorbed.

The cream leaves no oily or sticky residues, but retains broad spectrum disinfection ability and can help to reduce the possibility of cross infection.

Ingredients: Homeo-harmonised Aqua, Isopropyl Palmitate, Sorbitol, Lanolin, Glycerol Stearate, Cetyl Esters, Steareth-2 Peg-100, Stearate Triethanolamine, Ceresin, Sterichelle™, Carbomer, Parfum, Steareth 20 CI 14700.

Appearance: pink, viscous cream with a slight, pleasant odour.

Caution. For external use only. Keep out of eyes. JJ Rider Hand and Body Moisturiser contains Sterichelle™ which is as safe as water to higher living organisms and to the environment. It is however proven to kill various micro-organisms through a broad spectrum so reasonable care should be taken. If ingested or in contact with eyes rinse with water immediately and seek medical attention.

Keep in the original container. Store in a cool dry place away from children. All empty containers should be recycled using the appropriate facilities offered by your local authority.

“Sterichelle” is your invisible protector against bacteria, viruses, moulds, fungi, spirochetes, bacterial cysts and fungal spores which are potentially harmful to your horses.
