A Natural Choice for the Professional.

## JJ Stable Disinfectant

### Directions for use:

1. Remove all bedding and debris from the stable to be disinfected.
2. Wash the stable down and rinse out using clean water.
3. Dilute JJ Stable Disinfectant one to ten (1:10) with warm water, (if available).
4. Spray the diluted JJ Stable Disinfectant on the walls, floor, gates and bars of the stable.
5. Allow to air dry if possible. If you are not able to do this, it is safe for your horse to be immediately placed in the stable.

JJ Stable Disinfectant is ideal for use in horse boxes pre and post travel.

**Ingredients:** Homeo-Harmonised Water (Aqua), "Sterichelle" (Alkyl Dimethyl Benzyl Ammonium Chloride, Alkyl Ethyl Benzyl Ammonium Chloride)

Full protocols and a range of products are available for quarantine or outbreak incidents.

This product contains no aldehydes, no alcohols, no chlorines, no phenols and no parabens for the benefit of you and your horse while protecting the environmental structure of the planet by being readily biodegradable.

"Sterichelle" has been tested effective against bacteria, viruses, moulds, fungi, spirochetes, bacterial cysts and fungal spores which are potentially harmful to your horses.

All test data is available on request.

Our mission is to blend traditional medical knowledge into the modern world for the benefit of you, your horse and the environment.
